

FARM MANAGER

260 Cows
Coastal Bay of Plenty

Challenge your management skills in a professional lifestyle location!

Our clients operate a 260 cow enterprise on 100 ha producing in excess of 88,000 kg MilkSolids. Consistent with their business plan, they want to delegate the management of their dairy unit to a motivated, progressive Manager. They are close to Tauranga and Rotorua which means excellent access to recreational and educational facilities as well as off-farm employment opportunities for partners.

Facilities include attractive three bedroom accommodation as well as a new 22-aside herringbone. The operation is fully developed and the Manager's focus can be solely on excellence in dairy management.

Your Opportunity

Our clients enjoy teamwork and communication that will allow you to apply modern management based on agreed policies. This position is ideal for a couple where one partner wants to work part-time in the dairy operation.

It will appeal to those who:

- have experience and qualifications to operate with minimal supervision
- will thrive on a positive, professional environment built on quality communication
- seek competitive results related reward and time off

FARM MANAGER

Career Opportunity
Leading Operation – Waikato

Our clients operate a progressive large scale beef enterprise near Hamilton. There expanding operation has established infrastructure, quality accommodation and is located handy to educational, recreational and off-farm employment opportunities.

This position offers 'hands on' responsibility for all aspects of stock, staff and general farm management.

Your Opportunity

This is your opportunity to challenge your management skills with minimum supervision. It will be ideal for those with experience and qualifications to achieve production and animal welfare targets, meet deadlines and monitor performance.

We want to hear from you if you:

- Enjoy the challenge of improving farm performance and working as part of a motivated team;
- Have skills or training for monitoring and analysis that will be enhanced by professional support;
- Will thrive in a positive environment and seek financial and career rewards consistent with a large scale and delegated operation.
